Instructions for submitting an abstract

You are invited to submit an abstract before December 15th. **Acknowledgment of receipt will be sent automatically. If you do not receive any acknowledgment, please contact us again.**

For talks, a maximum of two abstracts will be accepted for each speaker. All authors of accepted abstracts must register and be paid in full by the early registration deadline (currently February 2018). Authors failing to comply with this rule will not be included in the Conference Programme.

Oral (spoken) presentations will be limited to 20 minutes: 15 minutes for presentation and 5 minutes for questions. Contributed oral presentations will be grouped by topic. If your abstract is accepted but cannot be accommodated as an oral presentation, we may offer you the opportunity to present a poster. All oral presentation rooms will be equipped with a computer and a data projector. Poster presenters will receive general instructions on poster format once the abstract is accepted. Detailed information and instructions on presentations at the meeting will be available to presenters several months before the meeting.

Proposals must contain the following information:

Talk or poster presentation?	Poster
Language of the presentation	English
Title of the presentation (limited to 150 characters including spaces)	The ecotoxicological impacts of lead and non-lead pellets on wildlife: learnings on methodological development of a systematic review.
Author's name	Olivier Cardoso ¹ – Elisane Tessier ¹ – Barbara Livoreil ² – Ludivine Boursier ² , Nirmala Séon-Massin ¹
<ul style="list-style-type: none">• affiliation	¹ Office National de la Chasse et de la Faune Sauvage, Direction de la Recherche et de l'Expertise. 5 Impasse de Saint-Thibault, 78610 Auffargis, France. ² Fondation pour la Recherche sur la Biodiversité, Pôle Appui à la Décision et à la Négociation. 195 rue Saint Jacques 75005 Paris, France.

Abstract (limited to 150 words)	Metal (especially lead) poisoning among wildlife species caused by scattered and accidentally ingested ammunitions or fishing tackles has been a recurrent and worldwide problem. Nowadays, a partial consensus exists about the scale of the phenomenon (impacted species, prevalences, risk factors ...) or the effectiveness/applicability of adopted and future regulatory solutions. Yet, the controversy is still supported by several

	<p>sociocultural, political and economic issues. To anticipate a ministry's request, ONCFS is using the methodology of systematic review to allow a comprehensive, repeatable and unbiased assessment of these ecotoxicological impacts, determining knowledge gaps and further scientific challenges. The work team presents the methodological development (PICO, scoping/screening/sorting process, study typology and quality assessment) and the difficulties experienced: large geographic and taxonomic spectrum, important variability of sub-questions addressed, strong heterogeneity of studies/field reports in order to benefit from the audience's feedback before the submission of the Protocol. These parameters have caused an important work to define a priori inclusion criteria to be used in the eligibility screening stage of the review and reach a good operator's agreement and design the elements of the systematic map essential to describe the available knowledge, before any further assessment is conducted.</p>
<p>Required support for French/English translation (for talks)</p>	<p>No</p>

Instructions pour soumettre un résumé

Nous vous invitons à proposer un résumé en vue d'une communication orale ou d'un poster, avant le 15 décembre 2017. **Un accusé de réception sera envoyé automatiquement. Si ce n'était pas le cas, merci de nous contacter par courriel.**

Nous acceptons au maximum deux communications orales par intervenant. Tous les auteurs dont les résumés seront acceptés devront s'inscrire au congrès et avoir payé leur inscription dans sa totalité avant la date limite des inscriptions (février 2018). Si ce n'était pas le cas les organisateurs se réservent la possibilité de ne pas inclure ces communications dans le programme de la Conférence.

Le résumé pour une communication orale ou un poster doit comporter les informations suivantes :

Présentation orale ou poster ?	
Langue de la présentation	
Titre de la présentation (limité à 150 caractères, espaces compris)	
Nom de l' auteur	
<ul style="list-style-type: none"> • affiliation 	
<ul style="list-style-type: none"> • informations complètes de contact 	
<ul style="list-style-type: none"> • adresse e-mail 	
Abstract (limité à 150 mots)	
Aide souhaitée pour une traduction simultanée Français/Anglais (présentations orales uniquement)
